Costanza LED

Paolo Rizzatto, 2014

EN LED technology has made it possible to update Costanza while keeping its inimitable characteristics: high performance in terms of diffuse lighting and visual comfort, also thanks to the touch-dimmer controlled by the classic sensor rod, and the interchangeable polycarbonate shade. A contemporary breakthrough for a great classic.

IT La tecnologia LED ha consentito di rinnovare Costanza, mantenendone le caratteristiche che l'hanno resa inimitabile: alte prestazioni in termini di illuminamento diffuso e comfort visivo, grazie anche alla dimmerabilità sensoriale tramite la classica astina a sfioramento, unite al paralume intercambiabile in policarbonato. Una svolta contemporanea per un grande classico.

DE Mit LED-Technologie ist es möglich, erneuern die Costanza, den Eigenschaften, die es einzigartig gemacht: hohe Leistung in Bezug auf Beleuchtung und visuellen Komfort durch sensorische Dimmbarkeit durch klassischen Touch, Pin zusammen mit auswechselbaren Polycarbonat Lampenschirm. Eine moderne Variante auf ein Klassiker.

FR La technologie LED a permis de renouveler la gamme Costanza, les caractéristiques qui la rendent unique ont été maintenues: haute performance en termes d'éclairage et de confort visuel grâce à gradation de la tige sensorielle par effleurement, combiné à l'abat-jour en polycarbonate interchangeable. Une touche contemporaine pour un grand classique.

ES La tecnología LED ha permitido renovar la Costanza, manteniendo las características que la hacen única: alto rendimiento en términos de iluminación y confort visual gracias a la clásica varilla sensorial que permite ajustar la intensidad luminosa, combinado con la pantalla de policarbonato intercambiable. Un toque contemporáneo sobre un gran clásico.
